

Transportation Management Area (TMA) Partnerships South Central Regional Council of Governments (SCRCOG) Capitol Region Council of Governments (CRCOG)

RiverMPO partners with both SCRCOG and CRCOG in transportation planning for a larger transportation management area. The primary objective is to find ways to work across boundaries to ensure congestion management planning is ongoing, air quality conformity objectives are met, and funding for larger regional transportation projects is streamlined. Additionally, the regions work in partnership on transit connections, mobility management, emergency management, bikeway planning, freight planning, river access and quality, and sustainable growth initiatives.
